Subject Index, Vol. XLVII, 1983

A.I.D.S.
- Acquired Immune Deficiency Syndrome 129

Acid fast bacteria
- A.I.D.S. 129

Acquired Immune Deficiency Syndrome
- Acid-fast bacteria 129
- Autopsy findings 129
- Kaposi's sarcoma 129
- Male homosexuals 129

Adipocytes
- Tissue characteristics in obese mice 35

Adipose cellularity
- Characteristics in obese mice 35

Age
- Effects on obesity in adults 263

Albino catfish
Growth and survival 361
Alcohol
Prenatal rat skeletal development 254
Rat fetal development 254
Allometry
Bird 317
Craniofacial growth 217
Early life styles in birds 317
Fish 292
Bacteria
Acid-fast and A.I.D.S. 129
Biorhythms
Effects on human leg growth 53
Bird
Allometry 317
Organ growth 317
Birthweight
Maternal smoking 122
Sudden Infant Death Syndrome 104
Body composition
Maternal and heterotic effects 272
Body composition
Rat (LL and SS) 272
Body fat
Pre- & Postweaning effects in mice 35
Body weight
Effects of nutrition 207
Effects on growth (channel catfish) 97
Bone
Matrix variability 301
Plasma proteins 301
Bone protein
Age and sex variations in rats 301
Plasma proteins 301
Cartilage
Cells in neonatal mice 77
Casein
Effects on rat organ growth rate 26
Catch-up growth
Head-irradiation (rats) 13
Undernutrition (rats) 13
Catfish
Body weight 97
Crossbreeding 97
Fin abnormality, growth and survival 361
Maternal effects 97
Cattle
Prenatal growth 371
Cell growth
Rat 403
Cell wall deficiency
A.I.D.S. and Kaposi's sarcoma 129
Channel catfish
(See: Catfish)
Chicken
Fatness 411
Chicken
Growth rates: Broiler vs. layer 135
Lipogenic enzymes 411
Muscle growth 135
Myofiber growth 135
Child
Growth rate of premature infants 340
Leg growth 397
Leg length: daily variation 397
Leg length: measuring device 397
Malnutrition 381
Mathematical growth modeling 340
Nutrition effects on body size 207

Page

Child nutrition
Female body size and form 207
Chiloplacus
(See: Nematodes)
Collagen
Cells in neonatal mice 77
Copper deficiency
Sunflower 184
Corvus monedula
(See: Jackdaws)
Coturnis japonica
(See: Quail)
Craniofacial growth
Allometry 217
Principal components 217
Crossbreeding
Effects on growth (channel catfish) 97
DNA
Skeletal muscle (pig) 67
Skeletal muscle (rat) 282
DNA synthesis
Effect of androgens 201
Deciduous tooth eruption
Maternal smoking 122
Developmental morphology
Sunflower 184
Diallel cross
Rat (LL and SS) 272
Diet
Allometry (freshwater fish) 292
Freshwater fish and intestine length 292
Rat growth 26, 403
Dietary protein
Growth in pigs 348
Drug effects
Effects on human leg growth 53
Ethanol
Rat skeletal development 254
Family background vs. smoking
Deciduous tooth eruption 122
Fetal cells
DNA synthesis and androgens 201
Hemopoiesis 201
Fetal development
Prenatal rats and maternal alcohol 254
Fetal growth retardation
Sudden Infant Death Syndrome 104
Fieldfares
Early organ growth 317
Fin abnormality
Catfish and survival 361
Fish
Diet and intestine length 292
Freshwater fish
Diet and intestine length 292
Geese
Allometry 317
Early life styles 317
Organ growth 317
Genetic effects on growth
Rat 237, 272
Glucocorticoid hormone
Cartilage cells in neonatal mice 77
Glucocorticoids
Growth of cartilage in neonatal mice 77
Golden Hampsters
(See: Hampsters)
Growth
Bird organ 317
